

The O'Doc family of solutions are all written in FileMaker Pro 11, which was only released March 2010.

FileMaker Pro is the #1 selling easy-to-use database software for Windows and Mac OS that helps us to help you manage your business better.

The award-winning ease of use that is built into every aspect of FileMaker Pro continues to be praised by millions of customers and industry experts around the world.

Like MoneyWorks, FileMaker is very scalable, allowing us to address a full range of business sizes, from single user to server based large multi user sites.

We have been developing commercial systems in FileMaker for more than 16 years, and hold Associate status with the FileMaker Solutions Alliance.

Cachet Software runs on FileMaker Server 11, which will be housed on your Server computer.

All users have FileMaker Pro on their computers which talk directly with FileMaker Server.

FileMaker Pro won 49 awards, more than its next eight competitors combined, from 2003-2008 in the U.S., and a total of 130 awards worldwide during this time. These awards included "Best Database Software" from the SIIA Codie Awards and "Product of Year" honors from *PC Magazine* and *Macworld*

magazine.
